Sir:

In response to the Office Action mailed February 3, 2003, please amend the above-captioned application as follows:

IN THE CLAIMS:

Please amend claims 1, 20 and 25 to read as follows:

1. (Amended) A dose setting device for use in combination with a fluid-filled reservoir, the dose setting device being adapted for repetitive injection of individual set doses of fluid from the reservoir, the dose setting device comprising:

3
a housing;
a drive member adapted to expel a dose of medicine from the reservoir;
a spring means for driving the drive member to expel the dose;
a dose setting assembly mounted in the housing and connected to the spring means, the dose setting assembly comprising a dose setting member being moveable in a first direction to set a selected dose against the bias of the spring means, wherein
